

Specialised HomeCare Services

Beatha's Specialised HomeCare Services renders support to Medical Doctors who consult & treat their patients in the home setting – or current place of residence whether it be a patient's Domicile, Retirement Village, Frail Care Centre, Hotel or Guest House. Beatha does not provide 24/7 home care by placing nursing staff & care givers in patient's homes. Beatha's Specialised HomeCare Services are booked, & undertaken, by appointment only at the request of the patient's treating Doctor.

Services rendered include, but are not limited to:

- Patient follow-ups post the Doctor's visit
- Wound Care
- Intravenous Fluid & Medication therapies
- Specialised Palliative Care in support of the Doctor's treatment plan
- Pain management (IV, IM, SC)
- Indwelling drainage catheter management, replacement & patient / family education
